# GEORGIANS' MUSINGS

Volume 2021-22/2

## PRINCIPAL'S DESK

The nation is in its patriotic fervour celebrating Azadi ka Amrit Mahostav. This is an initiative to celebrate and commemorate 75 years of freedom of progressive India and the glorious history of its people, culture and achievements. The festival of 75 years will not only endeavour to reflect the spirit of freedom struggle but also offer a tribute to the martyrs. It is a pledge to build India of our dreams.

Rashtriya Military school Bengaluru is as ancient as Independence itself. We at Rashtriya Military school Bengaluru are also gearing up to recognise and appreciate dedication, determination, devotion and commitment of the veterans of the school who laid the foundation so strong that the school is scaling newer heights with every passing day.

A spark lit then has now become a torch leading and guiding throughout. These years have just not created history; rather, have nurtured customs and traditions required to attain new and enviable heights.

May the spirit of the nation and that of our great institution set examples of vasudaiva kutumbakam in the years to come!

**Principal,  
Lt Col Dipankar Choudhury**

## IT'S A PLEASURE...!

It's a pleasure to see my cradle of learning and my nation into celebration mode for the same reason, (i.e) commemoration of platinum jubilee celebrations. It instils in me great contentment and a sense of pride in the achievements with a broader prospective and vision. The journey which began with baby steps has taken to strides on the path of progress and evolution. Azadi ka Amrit Mahotsav ignites the sparks of Service before Self, sense of responsibility and accountability towards the nation for the larger benefit. With insight, integrity and inspiration, let's steer our nation forward and onward!

Administrative Officer,  
**Maj Vikas Saroha**

## ADIEU!

The school bids farewell to Mr PD Jatav, Master Gazetted Hindi. His selfless services and dedication for over a vast span of three decades for the well being of the cadets and for the betterment of the school will be fondly remembered. Rashtriya military school Bengaluru fraternity wishes him a peaceful retired life with abundance of happiness and good health.

## EDITORS....

Creativity and expression require freedom and restriction- less free will. At a tiny age, the young minds need to be trained and ignited to express the right thoughts in a rightful way. Emphasis on 'creating a vision' for a better tomorrow for themselves and for the Nation besides safeguarding the Socio-cultural heritage embedded with scientific temperaments will take them a long way in shaping them into responsible citizens of the nation. Musings is a humble attempt on this path.

The subject chosen is Azadi ka Amrit Mahostav. Hope the expressions and creativity of our young creative cadets splashes all around the joy of reading!

All of us have nectar (Amrit ) like creativity in us. Everyone is a genius and it's just a matter of exploring one's own self. Seventy Five years of freedom deserves celebrations and so does the creativity in us. The issue of MUSINGS is sure to unfold and unravel the hidden world in our hearts and minds. The humble initiative is to set the budding minds free allowing them to travel into the infinite realm of imagination and creativity.

This platform is indeed a pious attempt to dig out budding talents and shape the concealed creativity which will ultimately enhance the power to Perceive, Observe and to Explore. As rightly said, the greatest leader is not necessarily the one who does the greatest things; rather, he is the one who inspires others to do the greatest things.

Happy reading!

## GURUBHO NAMAHA!

The Teachers day was celebrated on 5th September 2021 in the befitting manner recognising the efforts, selfless services and determination of teachers' doing their bit in the service of the nation. The chief guest Lt Col Dipankar Chaudhary , the Principal of the school appreciated the teachers for their herculean tasks especially in these times when education has to be imparted in a very unconventional way so that the young minds continue to keep themselves focused towards their goals. Floral tributes were paid to Dr S Radha Krishnan , the second president of our nation.

## Independence! Celebrations!

We celebrate our independence day on 15th August every year. We won our independence from the shackles of imperialism and this year it has been 75 years. It feels great that my nation has travelled 75 long years on the path of progress.

Our freedom fighters sacrificed their lives so that we breathe and live in fresh air, I join the people of the India paying their tributes and respect to all the freedom fighters. I also pay a tribute to those infinite unsung heroes from Kashmir to Kanya kumari and from Gujarat to Arunachal for their selfless sacrifices so that we see a brighter TODAY... Azadi Ka Amrit Mahostav is an apt step in this direction.

# Unsung Heroes

Surya Sen

Velu Nachiyar

Matangini Hazra

Durgawati Devi

Hemu Kalani

When we think about freedom fighters, we just recall a few of them but only a few of us know that our struggle for independence was a long crushing battle that had started way back in 1700s with a patriotic goal of Purna Swaraj. To accomplish the same, there weren't only the freedom fighters of India whom we know but also the heroes who fought as much selflessly and were never into the limelight. A few of them who I am personally inspired by are:

## SURYA SEN:

He was a school teacher by profession and was known for leading the 1930 Chittagong armoury raid. And was an Indian revolutionary who was influential in the Indian independence movement against British rule in India.

## VELU NACHIYAR:

She was the freedom fighter who created the first human bomb. When she found the place where the British stored their ammunition, she walked into the ammunition store after dousing herself in oil and lighting herself to destroy the arms. She had opposed British rule and emerged as one of the most daring freedom fighters of India.

## MATANGINI HAZRA:

She was a part of Quit India Movement and Non - Cooperation Movement. She was shot thrice in one of the processions but kept moving ahead with the Indian Flag in hand.

## DURGAWATI DEVI:

Durgawati Devi popularly known as 'Durga Bhabhi' was an Indian revolutionary and a freedom fighter. She was one of the few women revolutionaries who actively participated in armed revolution against the ruling British Raj.

## HEMU KALANI:

He was a Sindhi revolutionary and freedom fighter during the Indian Independence Movement. He was a leader of Swaraj Sena, a student organisation which was affiliated with All India Students Federation. He was one of the youngest revolutionaries to be martyred for the nation's freedom struggle and was executed by the British Government when he was just 19, two months before his 20th Birthday.

## Physical books have lost their charm as e-books are the way to go

**O**ld order changeth giving place to new. The advancement of technology has gifted us an easier way to access information in books or newspapers. Now we don't have to rush to a library or to a nearby store and get defaced if someone else gets a book issued or if it goes out of stock.

Now, we can just sit back and search for it at any time. We can keep it with us for as long as we want without having to worry about fines and other repercussions.

Necessity is the mother of invention. In the so-called Covid era, when the classes are all online, printed books have been losing their importance. The availability of information on the internet and the progressive growth of social media has replaced physical books.

When school students have the option of replacing their 2 kg

school bag with a 200 gram device, it has added to their joy. It's like the lesser the luggage, the easier the journey!

More physical books also mean more trees being cut. With online books, the green patches can be saved. There is a vast collection of reading material and if all of it is readily available online, the charm of waiting for a physical book is sure to fade out. Consequently, physical or printed books are losing their readers.

And yes, probably you too are reading this article on a device and not in a printed version.

**Satyam Kumar, class XII, RMS Bangalore**

**M**arcus Tullius once said, "A room without books is like a body without a soul." The grim scenario presently is where ever we see, people are lost in their mobile phones reading e-books or listening to audio books. Earlier, in trains, travellers used to read books but now they are all lost in their glass monogerie peeping into their phones. Ever since this pandemic has created a ruckus, books seem to have lost their place.

E-books are not good for mental as well as physical health as they lead to poorer quality of sleep and eyesight. Spending too much time on the screen also causes headache. The radiations emitted by smart phones are absorbed by our head. With these many complications, one will lose interest in reading altogether.

On the other hand, read-

ing a physical book not only gives us joy but also causes no harm. The owner of a book is a proud owner in fact. That joy of holding a book in our hand, then turning pages, slipping in a bookmark after reading! Nothing can beat the feel of reading a book.

That lovely fragrance of a book and the way we keep it with care and love is irreplaceable. Nothing can beat the feel of being Bibliomaniac, doing Sudoku, reading the colophon or the collectanea at the end and fighting with a librarian for getting a book issued.

Having the satisfaction of reading those many pages at one go is a very special feel. We can make them our friends as there is no friend as loyal as a book.

Nothing compares to the joy of reading a real book. I will sum up by quoting Jhumpa Lahiri, "That's the thing about books. They let you travel without moving your feet."

# Azadi ka Amrit Mahostav

As the nation is all set to celebrate Azadi ka Amrit Mahostav, we all realise that freedom is never given or gifted, it is won! Freedom is nothing but a chance to be better, do better and assist others too to be better. Freedom is a way of thought to live, a way that respects and enhances the freedom of others. It is just not our right; it is with an added sense of responsibility towards our nation and for the larger benefit of the nation. This is what we are trying to inculcate in the young minds and hearts. When the true sense of freedom is grasped by the future citizens, the purpose of celebrating Azadi ka Amrit Mahostav would be achieved.
